Dick:

Attached is a copy of a Missile Report prepared by FMSAC on [REDACTED] activity which is being forwarded to [REDACTED] via FE/DDP. We've gone through this exercise a couple of times before, and you mentioned last time that it was not necessary for DDI to review this prior to transmittal. For your information though, I would like you to see the most recent report which we are forwarding to [REDACTED]. Would you kindly return it at your convenience since we have a limited number of copies.
